Visibility: Alarm and Compliance Management

Manage alarms and mitigate compliance risk with visibility across your entire network.

Staying on top of alarm and compliance responsibilities is a growing challenge for retailers when considering the number of regulations at federal, state, and even municipal levels.

Invenco by GVR Visibility Alarm and Compliance Management provides retailers a cloud-based dashboard to manage and respond to real-time ATG site operation data while documenting monthly compliance history.

Cloud-based dashboard provides at-a-glance data for managing ATG alarm issues and exceptions.

Real-time alarm notifications* help owners maximize site uptime.

Easy access to complete site history and analytics including ATG alarms and compliance test results history.

** Notifications are dependent on customer ATG configurations.*

Proactive Alarm and Compliance Management

Cloud-based dashboard provides at-a-glance data numerically and graphically for fuel volume, water volume, ullage, fuel temperature, flow, site communication and alarm reporting.

Easily download monthly compliance reports to meet compliance regulations including test history. Other custom reports highlight trends and alarm issues.

Real-time alarm notifications* that can be customized by site for alarms such as tank setup data warning, tank leaks, tank high water, tank overfill, tank probe out, and over 20 others.

Monitor

Monitor ATG alarm events with 24x7x365 helpdesk support

Investigate Troubleshoot

Experienced technicians troubleshoot alarms, resolving most without requiring a dispatch, for significant savings

Dispatch

Dispatch to your designated technician or company when remote resolution is not possible

Reporting and Compliance

Streamline reporting with site alarm history and automatic archiving for quick reference

Let us manage your alarm and compliance management.

Visibility is offered as a self-service platform or as an Invenco managed service via a dedicated support center. Our skilled techs remotely troubleshoot ATG alarms and can dispatch an ASC as necessary. Additionally, we provide access to experienced compliance, regulatory and permitting experts for advice and solutions.

Mitigate compliance risks, save time, and respond to real-time* ATG alarms with Invenco by GVR Visibility Alarm and Compliance Management.

** Notifications are dependent on customer ATG configurations.*
